Subject: Buyout Acquisition of McAfee Security Software Company

I read recently in newspaper reports of your intention to buy out this company. You should realize that this, in addition to all internet related concepts, was conceived by myself and has never been compensated for by Mr. McAfee. Payment on these terms without compensation to me may be considered to be illegal since it was my legal right only to file a patent on this technology. I also invented the microprocessor which is likely your largest selling product. Please contact me so that you can verify the validity of these circumstances.

Thank you,

Michael R. Thomas
